### SON SAVED.

Is there anything sadder than to see the child you love fail and fade before your eyes. Money is lavished upon doctors, all that love can suggest and science can perform is called into requisition. But the cough tears and tears at the tissues. the cheeks grow hollow and yet more hollow, and the little frame weakens until the limbs can no more support the body.

What joy must come to the parents who find at length a remedy which helps and heals.

Dr. Pierce's Golden Medical Discovery has cured in hundreds of cases where doctors had altogether failed or given up the patients. When the lungs have been weak and bleeding, the cough obstinate, the body emaciated, "Golden Medical Discovery" has effected a perfect and permanent

There is no alcohol in the "Discovery," neither opium, cocaine or any other narcotic.

Do not be imposed upon by a substitute medicine in place of "Golden Medical Discovery." There is nothing "just as good" for weak lungs as the "Discovery," and all "just as good medicines" are made to fill the dealer's purse and not to heal the diseased lungs.

"After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. J. W. Price, of Ozark, Monroe Co., Ohio. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctor claimed he had consumption, and we doctored with him until he was past walking. It has been ten months since he stopped taking your medicine and he is still in good health. We are very thankful to you for saving our son.

General Lawton's Death Causes Universal Sorrow.

BODY BROUGHT FROM SAN MATEO.

Tenderly Deposited In Vault In El Pac-Cemetery-Thirteen Americans, Including Three Officers, Wounded-Agulualdo Joins Mariquina Force.

MANILA, Dec. 21 .- Major General Lawton's body was brought from San Mateo to Manila yesterday, his staff and a body of cavalry acting as escort. It was found necessary to bridge the river.

The funeral will take place from his late residence here, a mansion formerly occupied by a Spanish general. The body has been placed temporarily in a vault in El Paco cemetery, where many of the American soldiers have been interred, and a guard of honor will be maintained.

When Mrs. Lawton and her four children shall have completed their ar rangements for returning to the United States the remains will be taken on a transport with an escort of officers for final interment, as is thought probable here, in Arlington cemetery.

General Lawton's death has caused universal sorrow in Manila. No American officer had greater popularity among all ranks and in his dealings with the natives he commanded their respect and confidence to a remarkable degree. The mayors whom he installed in the neighboring towns are arranging to attend the funeral in a body.

Thirteen Americans, including three officers, were wounded in the engagement at San Mateo, where General Lawton was killed. Captain Breckenridge's wound is not considered dangerous, although the bullet penetrated his arm and side.

It is estimated that the insurgents numbered 500 and half of them were armed with rifles. The Americans numbered 1,300, but the command had been much depleted by sickness.

The wagon train found the roads impassable and was obliged to return. The insurgents retreated to the northeast, leaving six dead.

They have other forces near Taytay. This region, although close to Manila, has proved the most difficult from which to dislodge the enemy. It is now the Vermontville (Mich.) 1900-Pettigrew Wants Facts. WASHINGTON, Dec. 21.—In the final session of the senate yesterday before the holiday recess Pettigrew (S. He believed an effort was being made to prevent the testimony taken by the war investigation committee from being sent to the senate and declared his purpose of not submitting to the suppression of the facts, to which people in his state were

Proceedings in the House. Washington, Dec. 21.-No business was transacted at the brief session of the house yesterday. The time was occupied in a filibuster against a motion to adjourn. The Democrats and some Republicans did the filibustering in order to give Mr. Grow, the venerable ex-speaker of the house an opportunity to reply to some statements made Tuesday by Gaines (Tenn.). Mr. Payne, the majority leader, was defeated on two roll calls. Mr. Richardson chaffed him on his defeat in a good natured way. After Mr. Grow had made his statement the house adjourned until 12 o'clock Jan. 3, 1900.

At present there is a dispute between this potentate and Great Britain as to the boundary between Egypt and Abyssinia and it is feared that Menelik may consider the present an excellent time to make a demonstration against the British. The scheme of Cecil Rhodes of a Cape-to-Cairo railroad, or rather the plan of a British empire extending without any break from the Mediterranean to Cape Town, would be spoiled if Menelik finally succeeded in planting the Abys sinian flag over a point on the White Nile. How this Dread Disease May be Prevented and Cured-The Greatest of Specialists Writes on the Subject.

THE TENDENCY OF CATARRH.

The tendency of catarrh, when it has once obtained a foothold in any portion of the mucous membrane which lines every cavity of the body, is to constantly extend in every direction.

Catarrh in almost every instance starts with what is commonly known as cold in the head. This cold is added to by another, because of some extra exposure or weakening of the system and becomes chronic. Nasal catarrh is the result. Unless a radical cure of this condition is effected, the disease passes rapidly to the throat, to the bron chall tubes, and then to the lungs.

NEW LUNGS.

except this final and always fatal one.

A CERTAIN CURE.

In an experience of twenty years, during which time I have treated many thousands of cases of all forms of catarrh, I have never yet failed to effect a radical and permanent cure. The method I employ is one exclusively my own, and the remedies which I use are prepared under my personal direction in my own laboratories.

Many people imagine they have Consumption when in reality the disease has not quite reached that stage. I am treating and curing cases of this sort every day. So long as the process of decay has not every day. So long as the process of decay has not begun in the lungs themselves, I can make the patient perfectly well and strong again.

## The Mother of Consumption.

Catarrh is the mother of consumption.
By this I do not mean that every case of catarrh developes into consumption, but I do mean that catarrh when unchecked, and when given the proper op portunities for extension from its place of beginning, which is the masal passages, deeper and deeper along the breathing tract, invariably ends in Consumption of the Lungs.

Catarrh seldom destroys any considerable part of the mucous surface of the upper air passages; it infames and concests them, causing usually a superalundant and offensive discharge in the intensely delicate lining of the hair like lung tules and little lung cells, the inflamation and congestion which it causes, closes these small air passages and, allowing the putrid discharged matter to accumulate, causes a rotting away of the membrane, resulting in what we call Consumption of the Lungs.

THE TENDENCY OF CATARRH.

THE TENDENCY OF CATARRH.

Consumption cannot be cured. New lungs canno be made for a man any more than new fingers or a new nose; but catarrh can be cured in all its stages except this final and always fatal one.

perfectly well and strong again.

BEGIN AT ONCE.

Let me once more arge all catarrhal sufferers to begin treatment at once, for a month of treatment now is better than the three months later on.

I shall make for the next month a specially low fee for the treatment of catarrh not complicated by other diseases, making no extra charge for all medicines, etc., that may be required.
